

Fight, Isolate, and Crush Sol Rojo*

Does it sound strange? Let us explain. A major problem for those working to inform about the revolution and to try to contribute to the reorganization of the Communist Party of Peru is the website Sol Rojo (and maoistisktforum.org). This website has been publishing fake “documents” from **a non-existent central committee** for years. This not only results in people around the world being confused about the actual situation for the communists in Peru, but it also creates confusion in Peru.

People we know who have recently traveled to Peru tell us that they have spoken with revolutionaries who read the central committee’s “documents” on the Sol Rojo website and that they are “waiting for the Party to come back.” The problem is that revisionists (José and Raul, etc.) have taken over the central committee, and those who have been active in the past themselves must do the work of reorganizing the PCP, “not waiting for the Party to come back to various areas in Peru” **through a central committee that does not exist**. This is how the Sol Rojo website plays an almost unbelievably treacherous role. Those behind it have come to play into the imperialists’ game in a way that could be taken from a horror movie. The work of reorganizing the PCP in Peru can be facilitated from abroad if comrades in Peru have access to correct, easily accessible information about the situation and real analyses. But for this to become a reality, Sol Rojo (and maoistisktforum.org) must be swept away as a kind of strange center of lies.

Therefore, we urge all comrades and revolutionaries to:
FIGHT, ISOLATE, AND CRUSH SOL ROJO!
